- The equipment listed above should be understood as:
 

Survival craft: any lifeboat type including but not limited to freefall lifeboat, totally or partially enclosed LB, fitted with or without sprinkler/deluge system, fitted with or without an air cylinder, tender boat, rescue boat, inboard or outboard engines, propeller, or jet drives.

Launching appliances: any davit type system including but not limited to davit launched life-raft, secondary means of deployment and rescue boat davit.

Release gear: any hook release gear such as but not limited to onload/offload, freefall hydraulic, rescue and fast rescue boat release gear.

Winch: any which types including but not limited to single/twin drum, hydraulic and electric.
- Some equipment might be not clearly identified as unique equipment type/range and might be part of the same skid unit assembly or rebranded under a new parent company name. in such cases when evidence is provided to the attending RO's surveyor, this can be automatically be accepted by the attending surveyor without consulting the BMA.
- When a sub-contractor is acting as an independent company on behalf of a BASP, the attending sub-contractor is to be listed and included in the original BASP certificate of Authorisation.
